MEET INTERNATIONAL PANTSULA

Mzwandile Sithole, widely known as International Pantsula, is a dynamic music producer and sound engineer, best recognized as a DJ for the acclaimed record label Spacesound Records.

He is also a founding member of Broke, a multidisciplinary creative collective, where he plays a key role in shaping its music and event direction.

While his career spans several years, the three years following COVID have been particularly defining. His drive and resilience culminated in curating and performing at Boiler Room in early 2022, an event celebrated as one of Cape Town's most iconic Boiler Rooms to date.
